Use Determination & Recommendation:

Has the use existed since November 28, 1975? ☐ Yes ☐ No ☒ Unknown
Comments:

Is the evaluated use attainable? ☐ Yes ☒ No

Comments: The UAA was conducted in July, 2005 and no WBCR was observed. The stream did not meet the maximum depth or average depth criterion at any of the 3 sites. The creek was dry at site #1. Because of the shallow depth of the stream, the committee recommends removing the WBCR designation. The committee also recommends that the "P" classification of the stream be re-evaluated.

Committee Recommendation: ☐ Retain Use ☐ Modify Use ☒ Remove Use ☐ Inconclusive
